Eltomation's participation at the Mosbuild International Building Exhibition 2006 in Moscow very successful

Eltomation's recent participation at the **Mosbuild International Building Exhibition**, held from April 4-7 in Moscow, was very successful.

Currently final discussions and negotiations are under way for the supply of various Plants to Russia and The Ukraine, which include:

- The **Expandable (semi-automated) Phase II-2 Wood Wool Cement Board (WWCB)** with a capacity of 30-60 m³/shift;
- The **fully-automated Phase IV WWCB/EltoBoard Plant** with a capacity of up to 155 m³ WWCB or 38 m³ EltoBoard per shift.

First WWCB Production Plant to be started up in Beijing, China this fall

The first turn-key plant for the production of Wood Wool Cement Board is currently being installed at the company **Beijing Forestar Building Materials Co. Ltd. in Beijing, PR of China**. The plant will be provided with an ELTOMATIC CVS-16 Wood Wool Machine which will allow also the production of fine-fibre acoustic ceiling panels, Composite WWCB sandwich boards and Reinforced Roofing boards.

Board production is expected to start in November of 2006.
